°Appointed June 15, 1925, in place of Harvey R. Kingsley, resigned.

+Appointed December 21, 1925, in place of Charles E. Davis, resigned. Elected March 2, 1926.

## Report of the Mayor

### *To the Citizens of Rutland:*

Incorporated herewith are the detailed reports of all of the various departments of the City government.

I recommend that the taxpayers study these reports and I think that they will find them interesting, instructive and worthy of their careful consideration.

The various departments of the City have functioned during the past year with no friction whatever. It is my opinion that the heads of these departments are all interested in their work and in acting for the best interests of the City.

The net bonded indebtedness of the City has been reduced during 1930 by \$49,760.48. There has also been placed in the Sinking Fund and turned over to the commissioners of that fund, \$12,000.00, making the total of the Sinking Fund General Account to date \$168,614.52.

There has been added to the Sinking Fund of the Water Department during 1930 the sum of \$6,184.77, making the total of the Sinking Fund in that department \$11,619.41. The City finished the year 1930 with all bills paid and a cash balance of \$25,757.36.

I wish particularly to call to the attention of the taxpayers the fact that the City had no money during 1930 for City purposes derived from the sale of bonds. The work done during 1930 was financed entirely from money raised by taxes. The same is also true of the year 1929.

In my report of last year, I expressed my views in regard to the City's need of improved sewerage disposal facilities, and reference may be made to that report.

I have no special recommendation to make in regard to City matters that would involve projects to be taken up at this present time. Looking to the future, however, I believe that it might eventually be advisable for the City to acquire all of the property on the north side of Willow Street from Wales

Street to Edson Street and convert the area into a free parking space. The property is fairly centrally located and most of the buildings thereon are not of great value. I believe the availability of such a space would tend to bring more people into the city for trading purposes. I think the proposition is worthy of some serious consideration but I do not consider the present time suitable for going into the matter actively.

I take this opportunity for expressing my sincere appreciation to the Board of Aldermen and the heads of the various City departments, and to the workers in those departments, for their co-operation and conscientious work in the City's interest during the past year.

Respectfully submitted,

ARTHUR W. PERKINS,

Mayor.

## Report of City Treasurer

*To the Honorable City Council:*

Gentlemen:—

I herewith present to you my report as City Treasurer for the fiscal year ending December 31, 1930.

### RECEIPTS

Taxes received by City Treasurer .....	\$545,860 03

CITY OF RUTLAND

## Report of Commissioner of Public Works

*To the Honorable City Council:*

Gentlemen:

In accordance with the provisions of the City Charter, I submit herewith the annual report of the Commissioner of Public Works for the year ending December 31st, 1930.

### ORGANIZATION

Commissioner of Public Works, City Engineer,

and Superintendent of Streets ..... R. H. Royce  
 Assistant Engineer ..... E. L. Tracy  
 Assistant Engineer ..... W. K. Nichols  
 Superintendent of Water Works ..... E. S. Beardsley  
 General Superintendent ..... J. T. McLaughlin  
 Clerk ..... T. A. Reardon

### STREET DEPARTMENT

Twenty four hundred and twenty two square yards of 3 in. bituminous penetration pavement were laid on Grove Street from the end of the existing concrete pavement at the south line of Library Avenue to a point near Crescent Street.

A fourteen foot reinforced concrete alley, partly curbed, was laid on the south side of the Memorial Hall lot in conformity with an agreement made with the abutting property owners at the time Grove Street was widened.

Snow removal in the business section was handled as usual. During the early morning hours before traffic has started the tractor and the road machine windrow the snow back from the curb where it can be picked up later by the trucks. The gutters are kept free from snow and ice by constant cleaning and thus every thaw helps to reduce the ice which would otherwise have to be removed by hand later.

Sand has been spread when it seemed necessary.

Portions of West and Grove Streets. were surface treated with Tarvia.

Concrete curbs and gutters were placed the full length of Royce Street on both sides and also on Edgerton Street and on Litchfield Ave., as petitioned for.

The gravel pit on the lands of the Vermont Marble Co., on the south side of West St., was given up this year and after considerable investigation as to the accessibility, power facilities, etc., a 5 year lease was obtained from Thomas Grace in West Rutland giving the City the right to take gravel at 12 1-2 cents per yard from the pit on his farm. While the haul from here is further than from the Mendon pits looked at, the fact that there is a concrete road to the pit, a power line already there and that the gravel seemed more uniform was considered sufficient to offset the longer haul.

About 7,116 cubic yards of gravel were spread on various streets this year. This is equivalent to 4.04 miles of 18 foot road 6 inches thick.

Work was carried on intermittently at the city quarry on Pine Hill from Jan. 13th to Nov. 29 during which period 3,328 tons of stone were quarried and crushed.

Street oiling, applying calcium chloride, and water sprinkling were done on the assessment basis as in past years.

The road machine, tractor and roller were busy practically every possible day smoothing and grading roads.

Street surfaces, and gutters were cleaned from time to time and a constant patrol was maintained in the business section.

Cherry Street which has generally turned into a quagmire every spring was dug up, the grade lowered and gravelled. Considerable heavy grading was done on Ash St., Field Ave., Freeman Ave., Geno Ave., the north end of Grove St. Litchfield Ave., Vernon St. and Nichols St.

The Street department moved the books and furniture from the Rutland Free Library to temporary quarters in Longfellow School.

The roads did not break up as badly this spring as in some previous years and I think that this fall, generally speaking, they were in the best condition they have ever been.

There has been in force a policy to gradually improve many of the lesser used roads that have been laid out for years and have previously had little or no work done on them, and to give these roads a chance before accepting a lot of new streets. It costs considerable money to build a street if we consider the grading, road surface, gutters, curbs, sidewalks, sewers, water lines, hydrants, catch basins, oiling, trees, etc., and fairness would indicate that people who have owned and paid taxes for years on unimproved legal streets should be given consideration over new developments.

#### SEWER DEPARTMENT

Twenty new manholes were completed, and one was partly finished, while seven old ones were repaired, during the year.

Forty five new catch basins were built, and thirty four old ones were repaired or rebuilt.

Sewer extensions were made as follows: In Ash St., beginning at Walnut St., thence northerly in the center line of Ash St., 298 feet of 10 inch pipe and 242 feet of 8 inch pipe, a total distance of 540 feet to a point 92 feet north of the center line of Linden St.

In Bellevue Ave., beginning at north end of existing sewer thence northerly in the center line of Bellevue Ave., 250 feet of 10 inch pipe nearly to a proposed Aloedia St.

In Cleveland Ave., beginning at a point 46 feet south of Park Ave. center line, thence northerly in the center line of Cleveland Ave., 442 feet of 8 inch pipe to the center line of Crescent St.

In Crescent St., beginning at the outfall of Crescent St. sewer at the west abutment of the bridge over East Creek, thence downstream 116 feet of 12 inch pipe.

In East Washington St., beginning at the end of an existing sewer about 500 feet east of Lafayette St., thence easterly on the center line 54 feet of 8 inch pipe.

In Field Ave., relaying an old defective sewer from a point 119 feet west of the west side of the house at the north east corner of Field Ave., and Church St., to a point 306 feet further west with 8 inch pipe.

In Freeman Ave., beginning at the Stratton Road sewer thence easterly on the center line of Freeman Ave., 1024 feet of 8 inch pipe.

In Grove St., beginning at an existing manhole on the terminal of the Seabury St. sewer, thence southerly in the west gutter line 102 feet of 8 inch pipe.

In Howard Ave., beginning at the trunk sewer east of Wallace Ave., thence northerly in a recorded right of way 212 feet of 10 inch pipe to the center line of Howard Ave., thence easterly on the center line of Howard Ave., 90 feet of 8 inch pipe.

In James St., beginning at the north end of an existing sewer, thence northerly 50 feet of 8 inch pipe to a point 210 feet south of the south line of South St.

In Lincoln Ave., beginning at the Tenney Brook sewer, thence northerly on a recorded right of way 154 feet of 8 inch pipe, thence 43 feet of 8 inch pipe to the center line of Lincoln Ave., thence northerly on Lincoln Ave 866 feet of 8 inch pipe and joining an old sewer just south of Vernon St., a total distance of 1,039 feet mostly in ledge.

In North Church St., beginning at the end of the 1928 extension north of North St., thence 50 feet of 8 inch pipe.

In North Church St., beginning at existing sewer in front of No. 207, and thence northerly 288 feet of 8 inch pipe.

In North Main St., beginning at an existing manhole on the west side of the concrete pavement south of Tenney Brook, thence easterly under the concrete road 52 feet with 10 inch pipe to a new manhole built over the old sewer on the east side of the road.

In No. Main St., beginning at the end of the 1929 extension north of Vernon St., thence northerly 334 feet of 10 inch pipe to Field Ave., thence northerly 188 feet of 8 inch pipe to a point where work was under way Dec. 31, 1930, a total distance of 522 feet.

In State Street beginning at the end of an existing sewer on State St., thence westerly 106 feet of 8 inch pipe to Cramton Ave. center line, thence southerly on Cramton Ave. center line, 62 feet of 8 inch pipe, a total distance of 168 feet.

There were 5,329 feet of sewer laid, consisting of 4,067 feet of 8 inch, 1,146 feet of 10 inch and 116 feet of 12 inch pipes, and the average cost for the year per foot of pipe laid was \$2.05.

Catch basins were cleaned by hand and the average cost to remove the dirt from the basin was \$1.10 per cu. yd. This does not include hauling.

Numerous sewer plugs and leaks were repaired, and several mains were cleaned by the sewer cleaning machine purchased last year.

A bond issue for a sewer which would provide relief for the district in Ward 7 was voted against at the March election. This sewer is badly needed and has been for years.

#### SIDEWALK DEPARTMENT

Cement concrete walks with a standard width of 5 feet and a 4 inch depth were built as previously on a 1-2 cost basis with the property owners.

City labor laid 63,612.5 square feet which is equivalent to 12,722.5 lineal feet or 2.41 miles of 5 foot walk.

Sidewalks laid by owners amounted to 14,028.5 square feet which is equivalent to 2,805.5 lineal feet or .53 miles of 5-foot walk.

This makes a total of 77,641 square feet laid which is equivalent to 15,528 lineal feet or 2.94 miles of 5 foot walk.

The balance of unexpended money in this department was transferred by vote of the council to the General account to build a concrete bridge over Tenney Brook on Pearl St., after the weather prevented further sidewalk work, and thereby helped to relieve unemployment conditions.

#### GENERAL DEPARTMENT

Two new reinforced concrete bridges designed to have adequate water ways were built during the year. The first one was on Forest Street and some of the steel I beams salvaged from the old Ripley Bridge were used. Considerable trouble was caused by freshets and carrying out of the coffer

dams on this job. The other bridge was on Pearl Street over Tenney Brook.

Necessary repair work was done on the flooring or superstructure of bridges on Crescent St., Curtis Ave., Jackson Ave., River St., State St., Stratton Road and West St. The approaches to Ripley and Dorr bridge were repaired.

Eleven small culverts were repaired.

The River Street dump was closed this year and all dumping transferred to the barren land on the City Poor Farm. A road was made leading in from Gleason Road, and a wire fence enclosing the dump was erected to protect the cattle.

Main St. park was maintained as in past years and considerable tree trimming was done. The triangles at Woodstock and Harrington Avenues, and at Strongs Ave. and Wales St., were graded and seeded to grass.

This department repaired and moved election booths and supplies.

The annual clean up week was observed and the amount of rubbish collected justified the expenditure.

The old wooden building known as the "Long Soo" located on the west side of Main St. just north of Moon Brook and for many years an eye sore was demolished, the usable lumber was salvaged, and the rest given to those who wanted it for firewood.

That part of the Rotary Field given to the City and not included in the area occupied by the swimming pool and for 5 feet outside was graded, and crushed stone spread on it for parking space.

Considerable work was done repairing old, and building new guardrails.

#### SWIMMING POOL

The swimming pool started in 1929 was completed and ready for use the middle of June. The original appropriation of \$25,000 plus the gift of \$5,000 was not sufficient to complete it. The original estimate on the job including grading for 5 feet outside the walls was \$33,000. Mayor Perkins generously

contributed \$2,931.55 from his personal funds to make possible the completion of the work.

The water used in the pool is from the City water supply, is in constant circulation by means of an electric pump, and is chlorinated and filtered.

The pool itself is an ovoid shape 120 foot long by 80 feet wide and holds 256,000 gallons of water.

The basket system of checking clothes was used and seems to have been satisfactory. This method was more economical by about \$4,000 than installing the locker system.

All work was done by City forces.

#### WATER DEPARTMENT

Nine new hydrants were set this year, three existing ones were moved to more advantageous positions and twenty two hydrants were repaired.

New water mains were laid as follows: In Bellevue Ave., from the end of the existing main opposite No. 150 thence northerly 272 feet of 6 inch pipe.

In Curtis Ave., from a point just west of the Rutland Railroad crossing, thence easterly 733 feet of 6 inch pipe in Curtis Ave., to an existing line in Mussey St., thence easterly 462 feet of 6-inch in Curtis Ave., to the end as laid. Four valves were placed in this line, and considerable rock excavation was encountered.

In Hazel St. starting from a point where work was in progress Dec. 31, 1929, thence northerly 126 feet of 6 inch pipe to a new hydrant, thence 238 feet of 6 inch pipe to opposite the north line of Carroll's house, thence later, 99 feet of 6 inch pipe northerly to a new house. One valve and one blow off were placed.

In Howard Ave., beginning at an existing main in Wallace Ave., thence southerly 368 feet of 6 inch pipe to a new hydrant. A valve was placed in Wallace Ave.

In Library Ave., beginning at the junction of an existing 10 inch and 8 inch pipe, thence westerly 1,278 feet of 12 inch pipe, with 22 feet of 6 inch cross connections, to Cleveland

Ave. Five 12 inch valves and two 6 inch valves were placed exclusive of valves on hydrant branches.

In Ash and Linden Sts., beginning at or near the north line of Walnut St., thence northerly in Ash St., 408 1-2 feet of 6 inch pipe, thence easterly in Linden St., 323 feet of 6 inch pipe to an existing main in Holly St. Three valves were placed.

In North Church St., beginning at a point opposite No. 210 at the north end of an existing 4 inch pipe, thence northerly 297 feet of 6 inch pipe with one valve.

In Watkins Ave., beginning at a point just south of No. 47 thence northerly 1,063 feet of 6 inch pipe in boulder excavation, thence easterly in a recorded right of way 72 feet of 6 inch pipe to where work was in progress Dec. 31, 1930. This latter line is to furnish better circulation by cross connecting the Watkins Ave. and Hazel St. lines.

At the head water works, beginning at a point in the toe of the reservoir near the end of the existing 20 inch outlet pipe, thence westerly 560 feet of 20 inch pipe and 15 feet of 16 inch pipe to connect with the existing 12 and 16 inch supply mains to the City, using 8 valves.

A total of 6,336 feet of new mains were laid comprised of 4,483 feet of 6 inch, 1,278 feet of 12 inch, 15 feet of 16 inch and 560 feet of 20 inch.

Because of increasing need for it, a portable air compressor with drills was purchased this year.

A Venturi meter housed in a fireproof building was put into service on the 20 inch supply line May 22, 1930 and automatically records the flow of water on a chart.

WATER FLOWING TO CITY AS RECORDED BY VENTURI  
METER BELOW RESERVOIR

1930

Month	No. of days	Total gallons	Average gal. per day (24hr.)	Average gal. per capita per day (24 hr.)
May	10	26,130,000	2,613,000	151
June	30	84,340,000	2,811,000	162
July	31	84,920,000	2,739,000	158
August	31	84,420,000	2,723,000	157
September	30	83,770,000	2,792,000	161
October	31	82,400,000	2,660,000	154
November	30	77,960,000	2,599,000	150
December	31	84,400,000	2,723,000	157
Total	224	608,340,000	2,716,000	157

Population of the city: 17,300.

It will be noticed that the average consumption is 157 gallons per day, which is equivalent to 2,716,000 gallons daily, or 991,340,000 gallons yearly. The total receipts from the sale of water, both domestic and meter rates, were \$57,018.63 making the average cost of water 5 3-4 cents per 1,000 gallons as consumed by all classes.

There are many places in the City where the lack of necessary valves to shut down the water should be remedied, and a valve inserting machine was purchased for this purpose.

There were 41 new copper services laid and 86 old services were repaired or relaid with copper pipe.

Approximately 100 acres of land in Mendon were set out to 50,000 trees this year, being equally divided between White and Norway Spruces. The boys of the "Opportunity 4 H Club," of Meldon School, set out 1,000 of these. This makes a total of 566,000 trees set out since 1916.

It is reassuring to note that during the prolonged dry spell Rutland suffered no hardship from water shortage, while many places in the state were seriously affected.

The record of the annual precipitation as kept by Mr. Geo. H. Ross, Co-operative observer, U. S. Weather Bureau is as follows:

## PRECIPITATION FOR 1930 AT RUTLAND, VERMONT

Month	Snow	Rain	Total Prec.
January	10.7 in.	.48 in.	1.59 in.
February	17.8 in.	.90 in.	2.13 in.
March	7.0 in.	2.21 in.	2.79 in.
April		4.76 in.	4.76 in.
May		4.24 in.	4.24 in.
June		4.55 in.	4.55 in.
July		3.30 in.	3.30 in.
August		5.64 in.	5.64 in.
September		7.09 in.	7.09 in.
October	.8 in.	2.09 in.	2.19 in.
November	3.8 in.	2.13 in.	2.48 in.
December	12.5 in.	1.43 in.	3.52 in.
	52.6 in.	38.82 in.	44.28 in.

The timber contract between the City and Willis and Wands entered into Nov. 1927 in which Willis and Wands were to pay the City for timber cut and the city was to pay them for cordwood delivered along the road was concluded this year and the net cash profit to the City was \$2,962.16 which does not include bills outstanding nor cordwood on hand.

Under the supervision of Mr. Bradder of the State Forestry Service work has been started trimming and pruning the young trees set out in recent years.

Mr. Bradder is also making a tree plan of the City lands showing different growths etc., to aid in planning for future needs. This service is free to the City and is much appreciated.

## REPORT OF THE ENGINEERING DEPARTMENT

Grover St. was surveyed and line and grade for the new bituminous macadam pavement were established. Surveys

were made of Geno Ave., and Cherry Street, to determine the necessary improvements.

All sewers were laid to line and grade conforming with the "Proposed Sewer System" as planned in 1925.

This department did the surveying for all sidewalk construction. Much more time was required than formerly due to the large amount of sidewalk work done, nearly twice the average of former years. Curbs on Royce St., Edgerton St. and Litchfield Ave., were built to established line and grade.

A reinforced concrete bridge was designed for Pearl St. over Tenney Brook. This was built during the last part of the year. Preliminary surveys were made of State St. and West St. bridges over East Creek preparatory to the design of new structures.

A detailed survey of Field Ave. was made and a plan was drawn to serve as a basis for locating the street lines as laid out and recorded in 1779.

During the construction of the swimming pool grades were furnished as required.

A new system of keeping a record of water main valve measurements was started to conform with the recommendations of the New England Insurance Exchange. Individual drawings were made of each street intersection in the city and all water pipes, valves, hydrants, etc., shown. It is the intention that when this is finished, copies of these drawings will be bound into book form and carried by the Water Dept. truck so that emergency calls can be answered without delay.

A new water pipe line, 600 feet long, was designed to increase the discharge capacity of the main reservoir. This pipe, 20 inches in diameter, will furnish water enough to enable the 16 inch and 12 inch mains leading to the city to flow full, even though the consumption is unusually large. A Venturi meter was located in this pipe line so that the amount of water delivered to the city is now measured.

The study of available maps and records of the city lands in Mendon was continued, preparatory to the survey which has been started.

A detailed floor plan of the former Federal Building was made to be used as a basis for study in planning the future Library.

The surface treatment of streets was supervised by this department.

Street lines and grades were given whenever requested by property owners.

All city property was inventoried during the last week of the year. All routine work connected with the care of plans and survey notes was performed. This department compiled construction sheets showing the unit costs of all work done by the various departments. All sewer and water pipe extensions, including construction details, are shown by plans which are incorporated into yearly report sheets, one for each department. These serve as a permanent record of the work done underground.

The following recommendations are submitted for your consideration:

I think that a motor driven sweeper with a water sprinkler on it should be bought for use in the down town district, to replace our dilapidated horse drawn flusher.

The trunk sewer condition in the vicinity of Forest and Meadow Streets is as bad as it has been for years and ought to be relieved.

State St. bridge over East Creek should be replaced with a modern structure in 1932 provided state aid funds are available.

There should be a tree Warden to properly care for the many beautiful trees in the city and funds provided for this purpose.

The present policy of laying no water pipes less than 6 inches in diameter should be continued, and as fast as can be done the present under sized pipes should be replaced and valves inserted in mains and on hydrant branches where needed.

## CONCLUSION

In concluding this report I wish to express to the other members of this department my sincere appreciation of their loyal support and their generous response to the request for one day's pay to relieve the unemployed, of the courtesy shown by other departments, and for the consideration and cooperation by the Board of Aldermen, and by His Honor the Mayor, Arthur W. Perkins.

Respectfully submitted,

R. H. ROYCE.

Commissioner of Public Works.

## Report of Commissioner of Public Safety

---

*To the Honorable City Council:*

Rutland, Vermont

Gentlemen:

I hereby submit my report, as Commissioner of Public Safety, for the year ending December 31, 1930.

### POLICE DEPARTMENT

The Police Department is composed of the Chief of Police, 14 Patrolmen and forty-eight special officers.

294 arrests for various causes were made during the year, 3 less than in 1929, 151 were for intoxication, 31 for violation of the automobile laws, 22 for breach of peace, 18 for drunken driving, 4 for burglary, 1 for manslaughter and the balance for various other offenses.

1,750 lodgings were applied for and given, a very large increase over 1929, when there were 969.

5 automobiles were reported stolen during the year, 3 were recovered and returned to owners.

115 places of business were found unlocked by officers and owners notified.

The Patrol Wagon answered 129 calls in which arrests were made, and answered a total of 327 calls. To date the patrol wagon has been driven a total of 9,800 miles. During the year \$129.00 was turned into the city court account by the patrol wagon that was collected in costs. In August the patrol wagon was painted at a cost of \$86.45.

The Indian Motorcycle purchased in May 1929 is giving good service and is very useful in handling traffic and answering calls. It has now a total mileage of 10,501 miles.

An appropriation has been made for traffic lights at the following intersecting streets, State and Grove St., West and

Pine Sts., these lights will be installed in time to take care of the Spring traffic.

An inventory of apparatus and equipment, etc., on hand shows a total of \$8,096.17.

Appropriation for 1930.....	\$30,000 00
Credits .....	359 83
Total .....	\$30,359 83

#### Expenditures:

Salaries .....	\$28,262 64
Expenses .....	2,447 16

Total ..... \$30,709 80

Deficit ..... \$348 97

On March 1, 1930 The City Council voted the Police Department an increase of five per cent (5%) in pay. As no funds were appropriated to take care of this increase in pay the above deficit of \$348.97 is the result.

On December 30, 1930 two Sergeants of Police were appointed, one to go on duty for the day and the other for night duty, this order to take effect January 1, 1931.

#### FIRE DEPARTMENT

This report contains the membership, record of alarms and the cause thereof, the value of property at risk, the amount of insurance carried and the loss paid, as near as could be ascertained.

The manual force consists of one Chief Engineer, one Assistant Chief Engineer, two Captains, thirteen privates and eight call men.

The apparatus consists of two 750 gallon triple combination trucks, one combination chemical and hose truck, one 75 foot aerial truck, and one Buick service truck.

All apparatus is in good condition except the service truck and this should be disposed of and replaced with a new truck at once.

The Department answered 237 alarms during the year, this being 36 more than in 1929. The alarms were as follows:

Box Alarms .....	32
Telephone Alarms .....	186
Still .....	18
Thermostat .....	1

Total ..... 237

In addition to these alarms, the men answered two calls to remove cats from trees, three calls to shut off ammonia leaks and one call to pump out a flooded cellar.

Rutland again enjoyed a very good record as to the fire loss, which is as follows:

	Value	Ins. Carried	Ins. Paid
Buildings .....	\$1,778,650 00	\$1,398,600 00	\$10,287 24
Contents .....	454,154 00	369,100 00	11,607 74

Totals ..... \$2,232,804 00 \$1,767,700 00 \$21,894 98

This small loss again proves the efficiency of the Fire Department.

During the year one new box was installed at State and Grove Streets, one old box was replaced by a new one, Box No. 42 at Washington Street and Merchants Row was burned out during a thunder shower and had to be replaced, the coils in seven other boxes were burned at the same time and these were replaced by new ones.

The cost of maintenance of the Fire Department was \$40,852.15. The inventory value is \$68,326.35, a copy of which is on file at the Treasurer's office.

#### RECOMMENDATIONS

For the past three years I have recommended that the City Officials purchase, for the use of the Chief of the Fire Department, a new car and I sincerely trust my recommendation will be carried out this year.

I also recommend that all fire alarm boxes, in the business district, be placed on pedestals with red lights over them.

At Station One the plumbing is in very bad condition and I recommend that new showers be installed, also two more lavatories.

Respectfully submitted,

JOHN C. FOX,  
Commissioner of Public Safety.

## Report of City Attorney

To the Honorable City Council:

I herewith submit my report as City Attorney for the year ending December 31st, 1930.

During the past year the only actions brought against the city have been in connection with the holding of the City as trustee for the funds alleged to be due from the city, as a result of the contract with Clarence T. Rocheford, Inc., for the building of the high school. These actions have all been discharged with the exception of one now pending in the United States District Court in Boston, and one pending in the United States District Court for Vermont. In each of the pending cases no demand was made on the city except that it be held as trustee of the funds due Clarence T. Rocheford, Inc.

I have co-operated with the Tax collector of the City in the collection of delinquent taxes and have advised and assisted him in the adjustment of several matters.

I have also advised and counselled with the Overseer of the Poor in regard to the affairs of his department and have assisted him in his work of investigation and, in several instances, our investigation has resulted in the care of the poor being charged to other communities.

During the past year the search of title and the conveyance of the post office-Memorial Hall property has been completed, the title approved by the United States District Attorney and a delivery of the deed made and, in exchange, the city has received a deed of the post office property. This work was completed early in the spring of 1930 so there was no obstruction in the way of the Federal Government in the carrying out of the construction program promised.

During the year several insane paupers have been removed to the Waterbury Retreat, at the expense of the State, through the efforts of the Overseer of the Poor and the City Attorney, and the city was, thereby, relieved of liability for their care.

I have co-operated with the Chief of Police and the City Grand Juror in their respective departments and, during the illness of Grand Juror Hinchey, assisted wherever necessary.

During the past year, in co-operation with the Finance Board, the Long Soo property, so called, on South Main Street, was purchased and transferred to the City through this office and this unsightly locality has been cleaned up.

I have, during the year, performed various routine services for the different city officials, heads of departments and their committees, such employment being part of the general work carried on in the City Attorney's office.

I have enjoyed co-operating with the various city officials and committees and very much appreciate the willing and helpful spirit which all city officials and members of the various committees have extended to me during my term of office, and the efficiency with which the various duties assigned have been carried out.

Respectfully submitted,

CHARLES E. NOVAK,  
City Attorney.

## Report of Overseer of Poor

*To the Honorable City Council:*

I herewith submit my report as Overseer of the Poor for the year ending December 31, 1930.

During the past year assistance has been given to 255 outside poor families at a total cost of \$14,829.90, an average per capita cost of \$57.18. This compares with a total of \$9,984.23 and an average of \$57.38 furnished to 174 families during the preceding year.

During the past year we have had an average number of 35 inmates at the farm and it cost a total of \$3,223.67 or \$92.10 each. During the preceding year we had an average of 29 in-

mates with a per capita food cost of \$103.03 and a total cost of \$2,987.72. Transients to the number of 897 were given a night's lodging and supper and breakfast. This compares with 503 transients who were similarly cared for during the preceding year.

The inventory of live stock, farm implements, etc., show a total of \$5,327.66 an increase in last year's inventory of \$5,101.06. The complete itemized inventory is on file in the office of the City Treasurer.

During the year just closed the property owned by the city at the poor farm has been kept in good condition and all minor and necessary repairs have been properly taken care of. The poor farm itself produces all its own milk and vegetables and a part of the meat required for the table. All of the labor, with the exception of \$90.00 paid for farm and house labor, was performed by the inmates.

In accordance with our usual arrangements, we have, during the past year, taken every precaution to insure sanitary and healthful conditions at the farm.

The unemployment situation and general conditions of distress have added greatly to the expense of caring for the poor during the past twelve months and the capacity of the poor department has been taxed to the utmost in caring for the situation. We have strived our best to take adequate care of our poor at a minimum of expense to the city and have, at all times, had the very best co-operation and help from city officials and all agencies interested in the work of relieving the poor.

Respectfully submitted,

FRANK W. DIGNAN,

Overseer of the Poor.

## Report of Inspector of Buildings

*To the Honorable City Council:*

Boiler Houses .....	3
Storehouses .....	3
Overnight cabins .....	1
Exhibition Buildings .....	1
Hangers .....	1

Respectfully submitted,

CHARLES G. MORGAN,

Inspector of Buildings.

## Report of District Nurse

*To the Honorable City Council:*

I hereby submit the following report as District Nurse for the year ending December 31, 1930.

The work has been done along the same lines as in other years—medical, surgical and maternity. More prenatal and postnatal care has been given than ever before with very gratifying results.

During the summer two clinics for children of pre-school age were attended and assistance given. The first week in September the nurse had charge of the rest tent at the Fair for mothers, small children and babies which was under the direction of the Red Cross First Aid work. This proved to be a much appreciated service and with more spacious quarters this year it will prove its very worthwhile service.

In November and December much welfare work was done in visiting families where the wage earner was unemployed. Needs were met and assistance given so that Thanksgiving and Christmas dinners were enjoyed as in other years. Thirty-eight baskets were distributed.

Have been present at three meetings of the Central Emergency Relief Committee and presented the needs of families with which I am acquainted.

Churches, lodges, group leaders and individuals have been more than generous with their contributions of money, fuel, clothing, groceries, milk, furniture and bedding. All of these things have been freely and gladly donated and have been placed by the nurse when and where most needed.

The following is a summary of work done:

Whole number of nursing visits	1,770
Welfare calls	238
Prenatal	66
Maternity	37
Postnatal	105
Supplies in Layettes	134 families
	40 have been made and given out

The expense for salary, transportation and supplies was \$1,360.00. This has been met by the annual ward canvass, city appropriation \$300.00 and patients' fees of \$377.00.

Respectfully submitted,

LUCIE P. CLARK,

District Nurse.

January 19, 1931.

## Report of Health Officer

*To the Honorable City Council:*

I herewith submit my report for the year ending Dec. 31, 1930.

Contagious and infectious diseases reported:

Chicken Pox	65
Diphtheria	3
Erysipelas	4
German Measles	5
Influenza	1
Measles	3
Mumps	18
Scarlet Fever	27
Whooping Cough	1
Polio-myelitis	1

---

Total	129
-------	-----

Total number of plumbing inspections, 55.

Tap samples of water were sent daily to the Department of Hygiene for examination. Large samples of water from the reservoirs and different streams in the Mendon water-shed were sent at intervals.

Three inspections of the Mendon water-shed were made with the Commissioner of Public Works, R. H. Royce. On Sept. 11, an inspection with Dean J. W. Votey State Sanitary Engineer, and C. P. Moat State Chemist. Notwithstanding the drought the reports show that Rutland enjoys an exceptionally wholesome water of sufficient quantity.

Regular monthly meetings, were held during the year, by the Board of Health and under their direction 869 city inspections were made, not including daily inspections at the fair grounds during the fair.

CITY OF RUTLAND

147

The local Board of Health recommend, that a sum of money not exceeding \$500 (Five Hundred Dollars) be appropriated for the purpose of aiding families, under quarantine, without pauperizing the same.

Respectfully submitted,

CLARE M. COLE,

Health Officer.

## Report of Milk Inspector

To the Honorable City Council:

I herewith submit my report for the year ending Dec. 31, 1930.

Total number of dairy and creamery inspections, 1,007. Total number samples of milk and cream sent to the Department of Hygiene for examination, 798. The result of these tests were published monthly in the Rutland Herald.

Experimental samples of milk and cream have been tested frequently either at Burlington or Poultney laboratories. 328 sediment and lacto-densimeter readings were taken at farms and bottling places together with 121 butter-fat tests of milk and cream.

The following licenses were issued.

Producers	72
Retailers	114
Peddlers	11
Creamery	3
Wholesalers	5
Total	205

The sum of \$457 (Four Hundred Fifty-seven Dollars) was turned over to the City Clerk.

We are able to report a general improvement in equipment, care of, and quality of milk.

Respectfully submitted,

CLARE M. COLE,  
Milk Inspector.

## CAUSES OF DEATH

## GENERAL DISEASES

Anemia, pernicious .....	1
Cancer of breast .....	2
Cancer of cervix .....	1
Cancer of colon .....	1
Cancer of esophagus .....	1
Cancer of gall bladder .....	1
Cancer of intestine .....	1
Cancer of larynx .....	1
Cancer of mesentery .....	1
Cancer of mouth .....	1
Cancer of pancreas .....	1
Cancer of prostate .....	3
Cancer of pylorus .....	1
Cancer of stomach .....	3
Cancer of tongue .....	1
Cancer of tongue and mouth .....	1
Cancer of uterus .....	2

## Report of City Weigher

*To the Honorable City Council:*

I respectfully submit the following statement of weighing done on the City scale during the year 1930.

Paid the City Treasurer for 1,114 weights .....	\$111 40
Weighing fees .....	55 70
	<hr/>
	\$55 70

Net .....	141
Number of loads of coal, etc., weighed for the school buildings and City Hall free of charge .....	1,255
Total number of weights .....	

Respectfully submitted,

H. B. WHITTIER,  
City Weigher.

## Report of Librarian

The forty-fifth annual report of the Rutland Free Library for the year ending January 31st, 1931.

Number of volumes in the Library, Feb. 1, 1930 .....	28,941
Increase by purchase .....	444
Increase by gift .....	50
Increase by binding periodicals .....	70
Books added from duplicate pay collection .....	157
<hr/> Total additions .....	721
	<hr/> 29,662
Number of volumes withdrawn .....	219
<hr/> Number of volumes in Library February 1, 1931 .....	29,443
Number of volumes rebound .....	242
Number of volumes replaced .....	194
Circulation of books for 1930 .....	90,918
Circulation of books for 1929 .....	98,257
Decrease for 1930 .....	7,339
Circulation of foreign books .....	254
Circulation of volumes of music .....	203
Number of cards issued .....	834
Number of cards issued to children .....	474
Number of books drawn on teachers' cards during 1930 .....	16,053
Number of books drawn on club, subscription and special cards for ministers, editors, etc. ....	9,050
Number of volumes drawn by children in 1930 ....	25,338
Number of volumes drawn by children in 1929 ....	27,600

## CITY OF RUTLAND

183

Decrease for 1930 .....	2,262
School circulation .....	1,706
Number of teachers' cards in use .....	207
Number of subscription cards in use .....	146
Number of volumes repaired at Library .....	995
Number of days the Library has been open during 1930 .....	303
Number of days open for circulation .....	288
Largest daily delivery, Feb. 24, 1930 .....	639
Smallest daily delivery, Jan. 12, 1931 .....	46
Average daily delivery .....	315
Average monthly delivery .....	7,576

Interest from Feb. 1930 to Feb. 1931	67 82
Amount of fund to date .....	\$1,747 06

## Cramton-Cutts Legacy:—

Amount of legacy February, 1930..	\$14,534 41
Interest from Feb. 1930 to Feb. 1931	555 04
Amount of fund to date .....	\$15,089 45

Total amount of Special Funds and Interest	\$16,836 51
--	-------------

LUCY C. BURDITT,  
Treasurer.

## Report of Board of School Commissioners

*To the Mayor, Board of Aldermen and Citizens of the City of Rutland:*

The Board of School Commissioners is concerned about two important questions at the present time. We need to secure the money necessary to carry on the schools for this year and to secure the approval of the voters for an additional tax of five cents for needed repairs to school buildings and grounds.

The income desired for the running expenses of the schools will mean a tax of \$1.15 which is the same rate voted the past four years. While we estimate that our income will be \$3,298.83 higher than in 1930, our cost for teachers is estimated as \$8,295.00 higher than last year. The increase in the cost for teachers' salaries is largely on account of employing additional teachers and is but little affected by increases in salaries. The cost for new teachers has made it necessary for us to reduce the cost of maintaining the schools in some other way. After careful study by the finance committee and, in fact, by the whole board, it was decided to reduce the amount spent for repairs, for athletics, not including coaching and for capital outlay. About fifty per cent of the additional cost for teachers can be saved on the last item.

In regard to teachers' salaries, we do not think it is wise to try to secure teachers at a lower salary than is now paid. After securing information from other cities and larger villages in Vermont and in New England, we came to the conclusion that our salaries are already too low. We believe, therefore, that the citizens of Rutland would not care to have us pay less because lower salaries would mean less desirable teachers.

Eighty-eight per cent of the increase in cost for operating the schools during the last ten years is accounted for by in-

creases in salaries or new teachers provided to instruct additional pupils. Since our salaries are low compared with the other cities of Vermont, it is safe to say that the money furnished the school department has been carefully used.

An increase of \$8,863.82 over the cost in 1921 for all items, other than salaries, is very small when the new services furnished and added protection to school property is taken into consideration. The principal items which cost more in 1930 than in 1921 are insurance, light and power, furniture and equipment, telephone service, and transportation of school children. The cost of fuel for the fiscal year 1930 was \$3,192.06 less than the cost in 1921 in spite of an additional building where 300 tons of coal are burned. This saving is accounted for by the fact that a cheaper fuel is used.

Your Board has decided to ask for an additional tax of five cents on the dollar of the grand list more than was voted for current expenses of schools last year for the repair of buildings and grounds. In making this request we had two things in mind, the protection of city property and the universal call to make improvements in order to furnish employment to working people.

The Madison Street School was painted and redecorated in 1921. Any one who passes the building or looks inside will see that it needs immediate attention. The children who attend school in this building are hampered because sufficient artificial light is not provided. We believe that it is necessary to install new electric wiring and fixtures so the children can continue their studies on dark days. It is estimated that it will cost about \$2,300 for all the work proposed on this building.

The Longfellow School building was painted and redecorated in 1922. Several years ago we adopted the policy of painting school buildings every eight years. If we are able to carry out that policy the buildings will be protected against weather and reasonable care provided. We estimate that the cost for this work and other minor repairs will be about \$2,500.

There is a demand all over the City for walks and curbs so it seems wise to improve school properties in this respect.

The walks and curbs are in bad condition now and are an eyesore to the neighbors of the schools. We propose to lay walks and build curbs at two schools each year at an annual cost of about \$1,000.

Several property owners, adjacent to schools, have asked to have line fences erected, the cost of which will be shared. A fence between the sidewalk and the playground at the Longfellow School is very much needed to protect the lives of the 290 children who attend that school. The playground is small, traffic is heavy on both Church and West Streets and a child is liable to dash out any day in front of an automobile. We estimate that the cost to the school department for all fences needed this year will be about \$750.

I have often heard it said that the Board of School Commissioners is run by a few politicians who have everything their own way. I most emphatically deny that any such situation exists. I have been a member of the Board for seven years and have never heard politics or religion even mentioned. I would like to impress on the minds of the voters that such matters do not influence us in any way. On the contrary, every member of our Board is at all times working for the betterment of the schools.

I wish at this time to thank Superintendent Fairchild and every member of the school board for the kindness and help given me during my time as President of the Board of School Commissioners.

Respectfully submitted,

BOARD OF SCHOOL COMMISSIONERS,

By JOSEPH F. CRONAN, President.

Rutland, Vermont, February 2, 1931.

## Report of the Superintendent of Schools

---

*To the Board of School Commissioners, the Mayor, the Board  
of Aldermen and the Citizens of the City of Rutland:*

I have the honor of submitting to you the thirty-eighth annual report of the Rutland Public Schools and the tenth under the present administration.

Schools are established and maintained because of the part they play in aiding children to grow up in the right way. That the people of our State and of the Nation have great faith in the value of the education offered in the schools is evidenced by generous public support, by large increases in attendance and by the fact that most children remain in school for a longer period of time than formerly.

Attention tends to be fixed upon some fancied or real defect in school management to such a degree that we forget the high percentage of excellent work done. In 1922 fifty eight girls and boys were graduated from the Rutland High School. This number has grown to one hundred fifty in 1930 and a total of 1,068 pupils have graduated from the school in the last ten years. During the same period 1,506 pupils have been promoted from the eighth grade to the high school, increasing from one hundred forty in 1922 to one hundred ninety nine in 1930. The percentage of promotion in grades one to eight was 88.8 per cent in 1922 but had been improved to 93 per cent in 1930. A persistent effort has been made at our high school to decrease the percentage of failure. These efforts have been so far successful that Principal Johnson is able to report that, while the percentage of failure was 10.03 during the school year 1926-27, the percentage of failure was 5.92 in the school year 1929-1930.

The conditions of life have changed so rapidly during the last generation that it is necessary for the schools to modify their program of instruction. This year we are work-

ing on a new program for health and physical education. We expect as a result of this study and the course evolved, to be able to teach the children better attitudes toward play and health habits which are necessary for successful living.

One school is beginning a study of character education to prepare the way for the development of a course of study next year. While it is certain that the home is the most important influence in morals, we believe that the schools can do much to establish right thinking toward some of the major issues of life.

A summary of the more important steps taken, during the past ten years, to improve the instruction of the girls and boys of Rutland will furnish ample evidence that necessary adjustments are being made.

The elimination of grade nine of the elementary school in 1922 was in harmony with almost universal practice in the United States and resulted in a substantial saving of time for the pupils as well as money for the taxpayer. The year saved by the pupil is a matter of importance because of the length of time now required to prepare for many kinds of work and because it adds one more year to the earning period of life. Since the average number of pupils enrolled for each year in the public schools is over 200 and the average cost per pupil per year is over \$80 the saving to the taxpayer is \$16,000 a year.

The organization of a modified junior high school, which we have called an intermediate school, has secured for the children better instruction under more favorable conditions. The cost of operating this school is about \$4,000 per year more than the cost would be if the old system had been continued. The advantages to the pupils, however, in improved subject matter, in better social development, and in a more adequate program of activities, have been so clearly demonstrated that no one desires to return to the old system.

Ten years ago our health program was beginning to develop under the direction of a part time nurse and a part time medical inspector. A full time nurse, a director of physical education, a part time instructor of physical education at

the high school, and a full time instructor of physical education at the Meldon School are employed to give direct instruction to children and to aid elementary teachers in formulating and in putting into operation a suitable health program. Our health program deals with such fundamental matters as cleanliness, foods, exercise, fresh air, sleep and rest, care of the body, prevention of sickness and safety education.

It is safe to say that reading, writing, spelling and arithmetic are taught more effectively now than ever before.

We do not expect the children to be able to spell all the words in the English language. But we do expect the majority of children to spell correctly the four thousand words which are most commonly used in daily intercourse. We expect the children to develop a spelling consciousness which will enable them to spell correctly many additional words and to develop a spelling conscience which will make them abhor a misspelled word.

A large percentage of the children of the first grade can read fluently, material suitable to their age, soon after the middle of that year. Since there is very little oral reading in adult life chief emphasis is placed on silent reading in order that comprehension and rate may be improved.

Investigation has shown that certain parts of the arithmetic taught a generation ago, such as annual interest, partial payments, cube root, longitude and time, troy weight, etc., have very little practical value. It has been found that 94 per cent of the fractions used by adults are 1-2, 1-3, 2-3, 1-4, 3-4, 1-5 and 1-8. Over 90 per cent of the problems, which adults have occasion to solve, deal with the four fundamental operations of addition, subtraction, multiplication and division and with simple fractions in the same processes. In view of these facts, and many others, our program in arithmetic calls for much drill in the type of problem which is socially valuable while but little time is given to the arithmetic puzzles so common a generation ago.

In common with most school systems we have had difficulty in securing the degree of legibility and speed which we desire in handwriting. Since September 1929 a part time

supervisor has had charge of this subject. We confidently expect that within a few years noticeable improvement will be seen in the handwriting of the children. Young people in high school, in college, or in business are under constant temptation to allow their handwriting to slump and become illegible. In the main, instruction in handwriting should be completed at the end of grade six but constant vigilance is the price of good results.

The academic standing of the Rutland High School has been maintained through the most trying period of its history. A number of factors have tended to slow up progress and make high academic standards increasingly difficult.

The disrupting effect of six years of part time and inadequate facilities for the instruction of high school pupils will probably be felt for some time yet.

Only four of the teachers now employed in the high school were on the faculty in 1921. Fifty seven new teachers have been recommended for appointment to that school since July, 1921, which is equivalent to an entirely new faculty every four years. Eighty five per cent of these teachers could be classed as "good teachers" with a strong probability of becoming "excellent" but a considerable number left before securing that rating. The rapid turnover of teachers in the high school is probably due to the fact that we are competing for teachers with New England and New York on unequal terms because most cities of our class are able to pay higher salaries.

A generation ago the pupils who entered the high school were from the upper intellectual and social levels which made a select class with a strong probability of academic success. At the present time nearly every pupil completing the eighth grade enters the high school. This is a desirable situation, but since all intellectual levels are admitted the average academic level is lower than in former years. The difficulty indicated here is partly overcome by offering courses suitable to different types of pupils.

By segregating our college preparatory groups and providing for them more advanced and intensive instruction our

position as an accredited high school has been maintained. The graduates of Rutland High School can enter, without examination, any college in New England which receives students by this method. Any pupil, possessing the type of mind necessary to make a college education profitable and who is determined to succeed in academic work can prepare, at the Rutland High School, to enter any college unless prevented by the accidents of birth or geographical limitations.

A conscious and persistent effort has been made to provide a small library for each elementary school room and a central library for the high school and the intermediate school. This plan has been so successful that each grade room now has, on the average, more than fifty library books. A central library has been in operation at the high school for two years which provides library privileges to an average of nearly 200 pupils per day.

Instruction has also been improved during the past ten years by:

1. A partial development of a program of visual education.
2. Experimentation with radio education.
3. The development and improvement of assembly programs.
4. The use of better text books, provision of more supplementary material and more adequate supplies and equipment.
5. The improvement of the musical program offered in all schools.
6. The employment of a part time home visiting teacher.
7. The introduction of manual training for boys in grades 7 to 12.
8. Improved and additional supervisory service.
9. Smaller classes grades 1 to 8.

10. An improved program for social development especially in grades 7 to 12.

While teaching children is the major business of the school administrator, the care and development of an adequate school plant must receive careful consideration. The program of plant improvement which has been carried out during the last ten years presents a picture of accomplishment which is highly satisfactory.

1921. The Madison Street School was painted and redecorated. Total cost .....	\$900 00
1922. The Longfellow School was altered, repaired and improved by the addition of two rooms, the installation of a new steam heating system, improvements in the basement, the installation of electric wiring and fixtures, painting and redecoration, and steel girders to support the floors. Total cost ....	33,123 37
1923. The Kingsley School was painted and redecorated and equipped with new electric wiring and fixtures. Total cost .....	1,787 16
1924. Following the fire at the Dana School in February, the building was restored by rebuilding the entire roof and second floor, except brick walls, the installation of electric wiring and fixtures, laying new floors throughout, repainting and redecorating and the purchase of new furniture and equipment for six rooms. Total cost .....	36,531 26
1925. The Lincoln School was repaired and improved by repainting and redecorating, improvements to the heating system, the installation of electric wiring and fixtures, and repairing the roof. Total cost .....	5,141 54

1926. The Watkins Avenue School was repainted and redecorated, electric wiring and fixtures were installed, and other improvements made. Total cost ..... 1,829 00

1927. The Park Street School was repainted and redecorated, electric wiring and fixtures were installed, and other improvements made. Total cost ..... 1,882 00

The exterior of the Meldon School was painted and the roof was altered and improved. Total cost ..... 2,276 00

1928. The task of erecting a new high school was nearly completed during this year. The cost of the building including site, furniture and equipment, architect's and engineer's fees, and other expenses, but not including development of grounds was ..... 400,000 00

The Meldon School was altered and improved to fit it for the use of the intermediate school by interior decoration, changing partitions in the south wing to provide six rooms of usable size, the addition of a fire escape, the installation of wardrobes in six rooms, building a stage in the auditorium, the installation of electric wiring and fixtures, and new furniture and equipment. Total cost ..... 19,125 10

1929. Grading and developing the grounds at the new high school was accomplished this year. The work included the excavation and removal of 1,500 to 2,000 yards of earth to provide for proper drainage and a driveway; the grading, seeding, and fertilization of about six and one half acres of land for lawn and recreation field; the laying of walks; the construction of a driveway and parking

area; the construction of a running track with drainage ditch filled with gravel; laying out fields for the various recreational activities of the high school; providing a sewer and catch basin for low area north of the building; and the erection of a fence on the west side of the school property. Total cost .... 10,901 09

The high school athletic association, assisted by public spirited citizens, assumed responsibility for the erection of a suitable fence on the north, east, and south sides of the recreation field at a cost of about \$2,500.

1930. Improvements were made at the Meldon School by the installation of new boilers, the erection of a new boiler room and coal pockets, the construction of a new area on the east side of the south wing at a cost of 14,498 22

Total cost for ten year period ..... \$529,287 24

#### INCOME

From bonds: Longfellow School ..	\$32,000 00	
High School .....	400,000 00	
		<u>\$432,000 00</u>

From insurance: Meldon School ..	4,316 46	
Dana School ....	22,500 00	
		<u>26,816 46</u>

From current income .....		<u>70,470 78</u>
---------------------------	--	------------------

Total income ..... \$529,287 24

During a period of "economic hesitation," the schools may be expected to exercise care in the expenditure of public funds. A large percentage of the money spent for public education is for items which cannot be altered in a short space of time

without seriously hampering the progress of the children. Our expenditure for capital outlay, which includes improvements to plant, new furniture and new equipment, has been reduced from an average of over \$9,500 for the past four years to \$1,595 for this year.

Every community which believes in the present and its opportunities, in the future and its promises will make sacrifices to maintain good schools; and wherever and whenever its action has been determined by a generous consideration of its girls and boys the outcome has been highly satisfactory.

Respectfully submitted,

W. W. FAIRCHILD,

Superintendent.

Rutland, Vermont, February 2, 1931.

## Statistical Report of the Rutland Public Schools

# FINANCIAL STATEMENT FOR THE FISCAL YEAR ENDING DECEMBER 31, 1930

Thomas Vincent	High School		1,200 00	1929

CITY OF RUTLAND

## Report of Auditors

*To the Honorable City Council:*

Your auditors have audited the books of the City Treasurer, City Clerk, Overseer of the Poor, Superintendent of Schools, and Sinking Fund Commissioners from January 1, 1930, to December 31, 1930, inclusive, and we hereby certify that, IN OUR OPINION, they have duly accounted for all monies received by them and that they have proper vouchers for all monies expended.

We find the records of disbursements as shown by the City Clerk and Superintendent of Schools in agreement with the entries on the books of the City Treasurer. We have checked the cash and verified the bonds, deposit books and securities in the hands of the City Treasurer and Sinking Fund Commissioners, and found them to be correct.

The books of the City Treasurer are in their usual excellent condition and very clearly show the city's true financial condition on December 31, 1930, and the result of operations for the twelve months' period then ended.

Respectfully submitted,

EARLE T. TOWER,  
JOHN W. BURKE,  
GEO. A. SABIN,  
City Auditors.
